Kaye ValProbe® Product Line Product Advisory Notice

Dear Valued Customer,

The Kaye ValProbe system has served as a reliable and efficient solution for Kaye ValProbe validation systems for 23 years. However, due to technological advancement and changes in the industry, we will cease selling this product after December 31, 2025. After this date, Kaye will continue to offer services such as calibration and repairs for certain models for up to 5 years depending on parts availability.

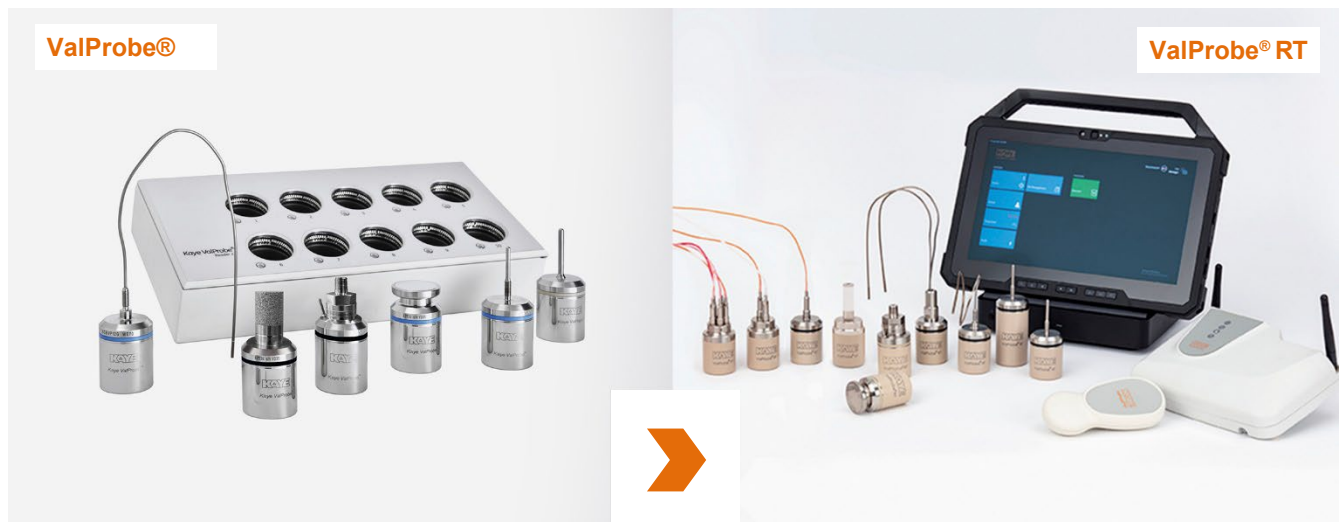

While we retire from this product, we are offering the ValProbe RT system, which provides enhanced features and improved performance. The ValProbe RT system offers both real-time and non-real time with a simple software selection. Our sales team will be happy to provide you with more information and assist you in transitioning to this next generation product.

We understand that this news may bring about concerns or questions regarding the impact of your operations. We assure you that our team is committed to supporting you through this transition period, seamlessly adopting to the ValProbe RT system. To make this transition easier you can upgrade some of your current ValProbe loggers to ValProbe RT. We continue to appreciate your trust in our products and services, and we apologize for any inconvenience caused by this obsolescence notice. Please contact us or your local Kaye Representative to discuss the impact and possible solutions to replacing your Kaye ValProbe Standard Data Loggers, as well as your other requirements for validation or monitoring.

Yours sincerely,

Volker Luebcke
